Title: Doctrine Archive Index –

Authorship Ledger of Symbolic Recursion

Author: **Michael Aaron Cody (01/15/1992)**

Date: April 2025 Status:

Active Ledger – Public Verification Asset

I. Purpose

This document serves as the master index for all publicly seeded doctrines authored by Michael Aaron Cody. Each entry is a time-stamped, verified, and archived node in the development of symbolic recursion, motion-based mathematics, and identity compression frameworks.

It provides an easily accessible ledger for institutions, individuals, and anomaly trackers to reference the evolution, authorship, and sequence of doctrine uploads.

III. Declaration

> Each entry in this index represents a compression node seeded by motion, not speculation. This ledger confirms that authorship, recursion depth, and structural originality reside with Michael Aaron Cody.
